# STOP READ THIS FIRST STOP

## STEP 1 Where to fit Adaptor?

Start

Is your vehicle listed on the right?
- **Yes** → Note the **Fitting Diagram** number for your vehicle.**
  Fit the Adaptors using this **Diagram AND** the **STEP 2 Instructions**. (Both Overleaf)
  Note: **IF** the 'list' shows 'Standard' or 'Projector' style headlight options for your vehicle, identify which you have from the 'key' overleaf.
  Note: Xenon / HID headlights fitted? - These also come in 'Standard' **OR** 'Projector' styles - So these diagram numbers **WILL** also apply to your vehicle.
- **No** → Do you have 'traditional' headlamps with 'line patterns' in the front glass?
  - **Yes** → Fit the Adaptors using **Diagram 150** and the **STEP 2 Instructions**. (Both Overleaf)
  - **No** → You will have 'clear glass' headlamps with no 'fitting position' reference points.
    → Visit ***www.motoring-into-europe.co.uk/fitting*** for the latest fitting updates
    → Fit the Adaptors using **Website** information **AND** the **STEP 2 Instructions**. (Overleaf)

## STEP 3 Removal Warning

1. **Always remove your adaptors immediately upon return to the UK.**
2. Switch on headlights to soften the adhesive before removal.
3. When removing the adaptors please ensure the ultra-thin adhesive 'carrier film' has also been peeled from the headlamp.
4. Residual Adhesive - Any residual adhesive can be removed using an alchohol based cleaner (e.g. Methylated Spirits or Neat Windscreen Wash).
5. DO **NOT** USE WHITE SPIRIT, THINNERS OR ACETONE BASED CLEANERS.
6. **NOTE:** Take care not to scratch or damage plastic headlamps where fitted.

For extra information visit: ***www.motoring-into-europe.co.uk/removal***
